**Subject:** Please review: Leavenworth BiOp ver 4/18/17  
**Attachments:** NMFS LNFH Opinion - Remand\_Clean Version 4\_18\_17.pdf; Feedback Template.docx

Good afternoon,

Please see attached for the most recent version of the Leavenworth Biological Opinion. This document is a draft with no missing language/placeholders and contains much of the climate change analysis that was not included in the previous draft.

You are being asked to review the draft Biological Opinion because of your technical expertise. Please do not distribute the attached draft outside of your agency. Please limit your review to fatal flaws, major discrepancies, or oversights that inaccurately describe program operations such that programs could not be operated as described, or that would immediately cause programs to be out of compliance with the terms of the Biological Opinion.

To streamline the method of feedback, please use the attached word document as a template for documenting your feedback. Please let me know whether you have edits to suggest by **COB, April 26 (Wednesday)**.

If you are interested in me walking you through the changes, please let me know, and we can set up a time. As always, please do not hesitate to contact me if you have any questions or concerns.

Thank you,  
Emi
